

Council Elections

Guidelines on canvassing for candidates

Canvassing by candidates is permitted within the following parameters:

- No canvassing must take place in advance of the date of dispatch of the election ballots
- Candidates should not spend money in promoting their campaign or get sponsorship
- Candidates should accentuate the positives of their campaign and must not criticise or disparage other candidates
- Institute funds will not be used in the support of any candidate

These guidelines apply regardless of whether the canvassing is conducted directly by the candidate or by another on behalf of the candidate.
