The past year has been a time of new challenges and opportunities for our profession, with increasing demand on pathology services and rapid evolution in technology and practice.

We have listened to members and worked with pathology stakeholders to address the issues that you have said are important to you. The Institute’s Council have been working with UKAS, the Departments of Health and NHS England to ensure your views on the transition to ISO15189, productivity and performance and widening patient access to pathology information are represented at the highest levels.

We have worked with our partners in pathology to support our members and the wider profession in delivering safe, high quality care; addressing pathology quality assurance, professional proficiency and outcomes for patients with cancer in joint statements with the Royal College of Pathologists (RCPath) and the Association of Clinical Biochemistry and Laboratory Pathologists (RCPath) and the Association joint statements with the Royal College of Pathologists (RCPath) and the Association of Clinical Biochemistry and Laboratory Pathologists (RCPath), representing at the highest levels.

We have a central role to play in empowering our profession to achieve the highest professional and educational standards and providing recognition of the breadth and depth of our members' skills and experience. We value our role in upholding standards of proficiency for biomedical scientists and are delighted that, in addition to reaffirming our Certificate of Competence benchmarks, quality and safety.

We have also enhanced the support we offer laboratories in achieving professional quality standards and delivering training that develops a highly skilled workforce able to adapt to new and complex technologies; updating our benchmark® guidance for Quality Management in Laboratories and our guidance and standards for laboratories applying for Institute training approval.

As a member of the Institute’s Council, and now as President, I have had the privilege of meeting many of our members, gaining invaluable insight into your concerns and aspirations for the profession and a greater appreciation of the vital contribution you make to the Institute. I would like to thank everyone who has made the Institute the outstanding organisation that it is; from Council shaping the policies and governance of the Institute, to our Advisory Panel members whose expertise makes Congress the leading UK biomedical science conference, to all the Institute’s Supporting Professional Development (CPD) and Region and Branch Officers, portfolio Verifiers and Examiners and representatives and members who support and promote the profession. I look forward to working with many more of you in the coming year; listening to your ideas and advancing our professional body together.

This year has brought the professionalism and dedication of our members into ever sharper focus.

I have been inspired by the commitment and generosity of so many of our members; from volunteers who helped tackle the Ebola outbreak in Sierra Leone, to members recognised by the Chief Scientific Officer, Science Council and the NHS for their leadership, innovative practice and excellence, to Institute representatives who work with policy makers and the public to promote our profession and ensure our central role in healthcare is recognised. The Institute is proud to be able to develop and support such outstanding ambassadors for our profession.

We are proud to offer support and services that enable our members to excel personally and professionally. Our tailored vocational qualifications and Continuing Professional Development (CPD) scheme, along with regular officer training and update days and candidate preparation days, have enabled our members to develop their practice and achieve recognition of their knowledge and skills.

2015 saw the Institute enhance our offering of professional development opportunities for members at every stage of their careers. We held our inaugural laboratory support staff conference at Congress 2015 and presented our first Student Biomedical Science Careers Expo. We also launched a new Diploma in Biomedical Science to enable the recognition of members’ multi-disciplinary post-registration training and ran dedicated sessions supporting members undertaking Institute qualifications at Congress 2015.

The Five Year Forward View and Sir Robert Francis QC’s Freedom to Speak Up Review. We have supported devolved governments in Scotland, Wales and Northern Ireland to deliver pathology service initiatives and taken part in the Healthcare Science four country event, examining key issues for the profession including seven day services, benchmarks, quality and safety.

We have had the privilege of meeting many of our members, gaining invaluable insight into your concerns and aspirations for the profession and a greater appreciation of the vital contribution you make to the Institute. I would like to thank everyone who has made the Institute the outstanding organisation that it is; from Council shaping the policies and governance of the Institute, to our Advisory Panel members whose expertise makes Congress the leading UK biomedical science conference, to all the Institute’s Supporting Professional Development (CPD) and Region and Branch Officers, portfolio Verifiers and Examiners and representatives and members who support and promote the profession.

I look forward to working with many more of you in the coming year; listening to your ideas and advancing our professional body together.

The President

Ian Sturgess CSci FBMS

President

I have been inspired by the commitment and generosity of so many of our members; from volunteers who helped tackle the Ebola outbreak in Sierra Leone, to members recognised by the Chief Scientific Officer, Science Council and the NHS for their leadership, innovative practice and excellence, to Institute representatives who work with policy makers and the public to promote our profession and ensure our central role in healthcare is recognised. The Institute is proud to be able to develop and support such outstanding ambassadors for our profession.

We are proud to offer support and services that enable our members to excel personally and professionally. Our tailored vocational qualifications and Continuing Professional Development (CPD) scheme, along with regular officer training and update days and candidate preparation days, have enabled our members to develop their practice and achieve recognition of their knowledge and skills.

2015 saw the Institute enhance our offering of professional development opportunities for members at every stage of their careers. We held our inaugural laboratory support staff conference at Congress 2015 and presented our first Student Biomedical Science Careers Expo. We also launched a new Diploma in Biomedical Science to enable the recognition of members’ multi-disciplinary post-registration training and ran dedicated sessions supporting members undertaking Institute qualifications at Congress 2015.

We have also reaffirmed our commitment to inclusiveness and accountability, ensuring greater opportunity for members to fulfil their potential. We have developed an Equality, Diversity and Inclusion strategy, opened Institute Committees to member observers and will be welcoming our first lay member to the Institute’s Council in 2016.

Our members’ collective knowledge and experience form the backbone of our professional body, so it is essential that our members’ views shape the Institute. We have sought your views on the issues that are most important to you through our Member Engagement Group and surveys on best practice, eLearning, CPD and qualifications. Members in Wales voted for the creation of the own region to better represent their views and respond to issues affecting them. I look forward to working with Council, members and IBMS staff in the coming year to deliver improved services and the support that you need to flourish in your practice and professional activities.

The Chief Executive’s Welcome

Jill Rodney

Chief Executive

We have also reaffirmed our commitment to inclusiveness and accountability, ensuring greater opportunity for members to fulfil their potential. We have developed an Equality, Diversity and Inclusion strategy, opened Institute Committees to member observers and will be welcoming our first lay member to the Institute’s Council in 2016.

Our members’ collective knowledge and experience form the backbone of our professional body, so it is essential that our members’ views shape the Institute. We have sought your views on the issues that are most important to you through our Member Engagement Group and surveys on best practice, eLearning, CPD and qualifications. Members in Wales voted for the creation of the own region to better represent their views and respond to issues affecting them. I look forward to working with Council, members and IBMS staff in the coming year to deliver improved services and the support that you need to flourish in your practice and professional activities.

The President’s Foreword

Ian Sturgess CSci FBMS

President

I have been inspired by the commitment and generosity of so many of our members; from volunteers who helped tackle the Ebola outbreak in Sierra Leone, to members recognised by the Chief Scientific Officer, Science Council and the NHS for their leadership, innovative practice and excellence, to Institute representatives who work with policy makers and the public to promote our profession and ensure our central role in healthcare is recognised. The Institute is proud to be able to develop and support such outstanding ambassadors for our profession.

The corporate strategy outlines a vision and a mission for the Institute. The Institute is dedicated to the promotion, development and delivery of excellence in biomedical science within all aspects of healthcare, and to delivering the highest standards of service to patients, service users and the public.

We aim to be the world’s leading membership body for biomedical science.

**Strategic priority 1: Supporting our members**

The Institute is a professional body dedicated to biomedical science and those who practise it.

The retention of our current membership is key to maintaining the Institute’s unique body of knowledge and the success of the Institute. As the professional landscape changes, we will engage and communicate with our members to ensure that we remain relevant, advance the profession, tailor our membership benefits and continue to innovate to meet changing needs.

We will:
- Continue to innovate to meet changing needs.
- Ensure that all services provided are appropriate to the environment in which our members practise.
- Continue to identify any gaps in our membership provision and develop and provide new services to meet these needs.
- Embrace new technologies to enhance our member experience.
- Provide opportunities for members to become involved with the Institute through local, regional and specialist interest groups.

We will work in partnership with our industry/ company members to showcase the latest developments in biomedical science.

We will also attract new members to the Institute by extending our reach and appeal both in the home nations and internationally.

During 2015-2018, we will adopt a two pronged approach to achieving this priority:

### Action: Enhancing member services

**We will**
- Continue to review the services the Institute provides to its members to ensure we understand their value and the impact on practice.
- Ensure that all services provided are appropriate to the environment in which our members practise.
- Continue to identify any gaps in our membership provision and develop and provide new services to meet these needs.
- Embrace new technologies to enhance our member experience.
- Provide opportunities for members to become involved with the Institute through local, regional and specialist interest groups.

### Action: Extending our reach

**We will**
- Encourage and support membership of biomedical science professionals from beyond the NHS and outside our traditional areas of practice.
- Enhance our inclusive approach by developing models of membership that meet the professional and developmental needs of all sectors of the biomedical workforce.
- Enable members at all professional levels to achieve recognition of their knowledge and skills through professional awards, registration, membership progression and Chartering.
- Form strategic alliances which strengthen the Institute’s position as a professional body.
- Grow the Institute’s international connections and presence.

**Strategic priority 2: Professional development and standards**

The Institute, through its members, is the owner and custodian of a unique body of knowledge and skills, and the lead organisation for professional standard setting and promoting excellence in biomedical science practice. The institute’s lead professional body status is externally recognised via the key role it plays in degree accreditation, determining the QAA benchmark statement, HCPC standards of proficiency for biomedical scientists and its licensing body status conferred by the Science Council.

The Institute creates, reviews and maintains standards for professional practice and conduct that support members in delivering high quality care.

During 2015-2018 we will build upon this custodial role and advance our role in the development of the profession and those who practise it.

**Action**

**We will**
- Continue to provide an approved route by which individuals can demonstrate they meet the standards of knowledge, skills and behaviour required for registration.
- Continue to improve standards of practice by providing a nationally recognised framework of training and qualifications.
- Recognise excellence and achievement at all levels through a membership structure that is fair and based on merit and facilitates progression.
- Produce guidance on standards and ethics that is fit for purpose in a changing environment.
- Play a key role in supporting and enhancing care.
- Enhance our reputation as the recognised custodians of a unique body of professional knowledge.

**Strategic priority 3: Advancement of biomedical science**

The Institute has been at the heart of biomedical science for over 100 years, and we continue to ensure that our members are equipped to meet the challenge of new developments in biomedical science and technology.

We will:
- Be the organisation that leads, guides and advises those who use biomedical science knowledge and skills to deliver patient care in all environments.
- Promote biomedical science as a defined area of knowledge and expertise that underpins the delivery of healthcare, research and high quality patient care.
- Ensure that the biomedical workforce has the knowledge and skills to embrace new and changing technologies.
- Become the recognised interface between academia and employers to ensure that our members can deliver the best biomedical science graduates to the best career opportunities across all industry sectors and internationally.
- Engage with others to share our evidence based best biomedical science practice.

**Strategic priority 4: Advocacy**

The Institute acts for, and on behalf of, its members. A strong and growing membership creates a powerful voice for biomedical science and its practitioners, and so promoting the profession and practice of biomedical science is a key function of the Institute.

We will work to ensure that the voice of biomedical science is both heard and listened to, and that the Institute will be a source of information for the profession, patients and the wider public.

We will use our unique position to inform governments, education commissioners, healthcare providers and commissioners and service users on the biomedical science workforce, its skills and contributions. We will advise on measures to ensure that the most appropriately skilled and qualified workforce, wherever it is practiced, supports biomedical science practice.

**Action**

**We will**
- Continue to provide an approved route by which individuals can demonstrate they meet the standards of knowledge, skills and behaviour required for registration.
- Continue to improve standards of practice by providing a nationally recognised framework of training and qualifications.
- Recognise excellence and achievement at all levels through a membership structure that is fair and based on merit and facilitates progression.
- Produce guidance on standards and ethics that is fit for purpose in a changing environment.
- Play a key role in supporting and enhancing care.
- Enhance our reputation as the recognised custodians of a unique body of professional knowledge.

**Strategic priority 5: Organisational robustness**

The Institute must be able to demonstrate that it is well run and fit for purpose.

We also need to be able to demonstrate the impact of our actions for the benefit of our members and to fulfil our charitable objectives.

During 2015-2018, we will continue to strengthen our governance arrangements to ensure that we have the right people and processes in place to deliver our ambitions and plan for the future.

**Action**

**We will**
- Ensure the Institute is fit for purpose to support and promote the development of biomedical science.
- Ensure that we develop and maintain corporate and organisational knowledge with CI and staff to support the delivery of our strategy.
- Support individual and collaborative research in biomedical science through research grants, accreditation of academic courses and by providing opportunities to engage with the profession, patients and the wider public.
- We will work to ensure that the voice of biomedical science is widely heard and listened to, and that the Institute will be a source of information for the profession, patients and the wider public.
- Ensure the Institute is adequately resource for the benefit of our members.
- Work on behalf of members to identify the opportunities presented by the liberalisation of the EU and global markets as they impact on the profession.
- Develop a strategy to encourage a diverse pool of members to stand for Council.
- Develop a strategy to encourage a diverse pool of members to stand for Council.
- Ensure the Institute is adequately resource for the benefit of our members.
- Work on behalf of members to identify the opportunities presented by the liberalisation of the EU and global markets as they impact on the profession.
- Develop a strategy to encourage a diverse pool of members to stand for Council.
- Ensure the Institute is adequately resource for the benefit of our members.
- Work on behalf of members to identify the opportunities presented by the liberalisation of the EU and global markets as they impact on the profession.
Supporting our members

As a membership body we are focused on delivering a range of benefits and services to support members in their professional practice at whatever stage they are in their career or the context in which they work.

Enhancing Member Services
We are continuously looking for ways in which we can improve what we offer our members.

Key Highlights from 2014/5
- Members overwhelmingly voted for the creation of a Welsh Region to ensure better representation and that we respond more effectively to the issues affecting our members living and working in Wales.
- We waived membership fees for members returning from voluntary work tackling the Ebola outbreak in Sierra Leone.
- We held Portfolio Training days to support Institute Verifiers and Examiners, Training Officers and candidates.
- We held CPD Officer Update days to help CPD Officers better support our members undertaking CPD.
- We hosted the first ever joint Institute student employability event with student members of the Natural Sciences Society at Middlesex University, London.
- We surveyed members on improvements to the Institute website and Continuing Professional Development (CPD) scheme.
- We enhanced our member benefits with the launch of electronic, interactive editions of *The Biomedical Scientist* for eReader, mobile phone and tablet users.
- We published the IBMS Guide to Social Media for Members following requests from members for guidance on using social media.

Extending our Reach
We want to extend membership to those with equivalent qualifications and professional experience, including those working outside the NHS.

Key Highlights from 2014/5
- We recruited an International Development Consultant to deliver the Institute International strategy.
- Associate Professor Dr Mohd Nazil Salleh CSci FIBMS was the first Institute member in Malaysia to become a Chartered Scientist.
- Institute member Ben Swift, was the first Anatomical Pathology Technologist (APT) to become a Registered Scientist (RSci) in the UK.
- We welcomed nine new Institute student affiliate societies.
- Our members around the country supported the International Federation of Biomedical Laboratory Science (IFBLS), celebrating International Biomedical Laboratory Science Day.

We supported members at all professional levels to achieve recognition through the Science Council registers.

This year we registered:
- 14 new Registered Science Technicians
- 41 new Chartered Scientists
- 14 new Registered Scientists

Find out more about Institute membership at www.ibms.org/join
**Industry Awards and Honours**

David Frost MIBMS won the Royal College of Pathologists’ (RCPath) Pathology Portraits competition.

Christine White CSci FIBMS was presented with the Award for Organisational Lead Scientist of the Year at the Healthcare Science Awards 2015.

Mark Cioni FIBMS and Catherine Pike won the Chief Scientific Officer’s Award for Clinical Leadership at the Advancing Healthcare Awards.

Sue Alexander CSci FIBMS was part of the Science4U Organising Committee who won the Healthcare Science Ambassador of the Year award at the 2015 Healthcare Science Awards.

Joan Jones CSci FIBMS was awarded an MBE in the Queen’s Birthday Honours List.

Claire Richardson MIBMS and her colleagues won joint first prize for her poster submission to the Scottish Healthcare Scientist National event held in Edinburgh.

**IBMS Awards and Honours**

Fifty year medals are awarded to members with half a century continuous membership.

During 2014/15 we awarded 76 medals, we would like to thank all our fifty year medal recipients for a lifetime of support.

- Mr Robert Banks CSci FIBMS
- Mr Ian Barr FIBMS
- Mrs Susan Barraclough FIBMS
- Mr Philip Blackburn MSc FIBMS
- Miss Gillian Broome FIBMS
- Mrs Janet Brown MIBMS
- Mr Andrew Caldwell FIBMS
- Ms Susan Chipp FIBMS
- Mr Ian Copplestone FIBMS
- Mr Alan Dean MBiol MSc FIBMS
- Mr George Deane FIBMS
- Mr Paul Dynan FIBMS BA STB MA
- Mrs Jill Eagles FIBMS
- Mr Harry Elliott FIBMS
- Miss Barbara Frost CSci FIBMS
- Mr John Gee FIBMS
- Miss Jocelyn Germain FIBMS
- Mr David Gravell FIBMS
- Mrs Margaret Holden CSci FIBMS
- Mrs Margaret Holland CSci FIBMS
- Mr William Hollinshed FIBMS
- Mrs Janice Horton FIBMS
- Mr Ian Howie FIBMS
- Mr Kenneth Irwin FIBMS
- Mr James Ito FIBMS
- Mr Ian Lewis FIBMS
- Mr James Jones FIBMS
- Mr Peter Kay BA CSci FIBMS
- Mr Robin Knight
- Mrs Christine Lemon FIBMS
- Mr David Loney FIBMS
- Mrs Anne Mahon CSci FIBMS
- Mrs Bernadette Marie Maren
- Mrs Hazel Mather FIBMS
- Mrs Christine Mattocks MIBMS
- Mrs Trevor Meacock FIBMS
- Mr Philip Metcalfe FIBMS
- Mr John Mills FIBMS
- Mr Tapan Mukherjee FIBMS
- Mr Robert Munro FIBMS
- Mr Brian Nairn CMol CSci FIBMS
- Mrs Linda Page CSci FIBMS
- Miss Ann Partridge FIBMS
- Mr A A Patel MIBMS
- Mrs Hazel Pawley FIBMS
- Mr Vernon Perry FIBMS
- Mrs Pamela Pettis FIBMS
- Mr Edward Phillips FIBMS Dip.HSSM
- Mr Alan Potter MBE MPhil CSci(Hon) CSci FIBMS
- Mrs Amarjit Price FIBMS
- Mr Peter Raidout FIBMS
- Mrs Christine Roycroft CSci FIBMS
- Mr Tony Savage CSci FIBMS
- Dr Frances Scott CMol FIBMS
- Mrs Margaret Scott MIBMS
- Mrs Ann Screen CSci FIBMS
- Mrs Lynne Shaw MIBMS
- Prof Paul Sibbons PhD FIBMS
- Mrs Beryl Skinner FIBMS
- Mr Carl Sorace FIBMS
- Mr John Barry Surrey
- Mr Robert Thomas FIBMS
- Mr Walter Tucker CSci FIBMS
- Mrs M L Tyreman FIBMS
- Mr Manil Watter FIBMS
- Dr Henry Waters PhD MSc FIBMS
- Mr Michael Williams CSci FIBMS
- Mr Brian Wilson FIBMS
- Mrs Pauline Wood FIBMS

We are proud to celebrate our members’ commitment and the vital contribution they make to healthcare. Congratulations to all of our members who have received awards and honours recognising both service to the Institute and the profession.

Awards and Honours

Gordon Sutcliffe MSc DMS CSci FIBMS and Laura Green RSciTech received commendations at the Science Council Annual CPD Monitoring Workshop.

Our eStudent membership won the award for Best New Product Development at the Association Awards 2014.

Our new routes to membership were highly commended at the MemCom 2015 Awards in the Member Recruitment category.

Gordon Sutcliffe MSc DMS CSci FIBMS receives his commendation from Trevor Lewis, Chair of the Science Council’s CPD Learning Group.

Professor Sue Hill, Chief Scientific Officer, Mark Cioni FIBMS, Catherine Pike and Roy Lilley at the Advancing Healthcare Awards.
Professional development and standard setting

High quality, relevant qualifications and training are the key to ensuring high standards of professional practice amongst the biomedical science workforce.

Key highlights from 2014/5
- The HCPC reaffirmed approval of the Institute’s Certificate of Competence routes to registration as a biomedical scientist.
- The HCPC approved the new Institute Certificate of Competence by Equivalence (Biomedical Scientist) which leads to eligibility to apply for registration as a biomedical scientist.
- We launched a new Diploma in Biomedical Science to enable the recognition of post-registration training.
- We published updated benchmark© guidance for Quality Management in Laboratories.
- We updated the guidance, standards and applications forms for laboratories applying for Institute training approval.
- The Institute London Regional Virology Discussion Group announced their inaugural virology foundation course.

To find out more about Institute education and training visit: www.ibms.org/qualifications

We awarded 657 Certificates of Competence and 624 Specialist Diplomas

We issued 263 Certificate of Achievement portfolios and awarded 68 Certificates

We awarded 657 Certificates of Competence and 624 Specialist Diplomas

We issued over 600 Registration Training portfolios and over 600 Specialist portfolios

Life Membership
Life Membership of the Institute is awarded to recognise an individual member’s significant contribution and support to the Institute across a number of years. In 2015 Life Membership of the Institute was awarded to Professor Keith Hyde CSci FIBMS and John Lewis FIBMS.

R J Lavington Prize
Established in 1977 in memory of the man who was General Secretary of the Institute for 22 years (1948-1970) this prize is awarded annually to the candidate who, at the first attempt, receives the highest mark in the Higher Specialist Diploma examination. In 2014, the following candidates were awarded the prize:

- Miriam Sadis, a first year BSc (Hons) Biomedical Science student at the University of Bradford, was awarded the Institute eStudent British Science Festival bursary. The bursary is awarded annually to an Institute eStudent member, enabling them to attend the British Science Festival.
- Tung On Yau, an MSc student at Nottingham Trent University, was awarded the Institute President’s Award for his outstanding essay on the latest developments in cancer treatments.

We sponsored an annual prize for one student graduating from each university with an Institute accredited BSc (Hons) degree programme in biomedical science. Each university or college awards the prize according to its own defined criteria to graduates who have achieved high academic distinction. During 2014/15, we awarded 39 prizes.

Company Members' Prize
Established in 2007 and awarded annually to the candidate who, at their first attempt, receives the highest mark in each discipline of the Higher Specialist Diploma examination. In 2014, the following candidates were awarded the prize:
- Emma Boreham MIBMS – Cytopathology
- Leonie Gliński FIBMS – Tissue Typing
- Ismay Humphreys FIBMS – Transfusion Science

We awarded the first new Company Members’ Prize for the candidate who achieved the highest mark across all the Diploma of Expert Practice (DEP) qualifications to Sarah Gibson CSci FIBMS for her marks in the DEP in Histological Dissection.

Mary Macdonald Prize for Achievement and Bursary
Established in the memory of Mary Macdonald CSci FIBMS who made a significant contribution to the Institute throughout her life.

In 2014-15, the Mary Macdonald Bursary was awarded to:
- Christine Smith, a Medical Laboratory Assistant based in the Biomedical department of Victoria Hospital, Blackpool
- Jennifer Hawarden, a Medical Laboratory Assistant based at the Royal Bolton Hospital
- Jacqueline Coghill, a Medical Laboratory Assistant based in the Haematology laboratory of the Forth Valley Royal Hospital, Larbert, Scotland
- Karlie Fallow, a Biomedical Assistant (BMA) in Virology at Leicester Royal Infirmary

We accredited 13 BSc honours degree programmes and 14 MSc degrees

Guest speaker: Sarah Gibson CSci FIBMS, Emma Boreham MIBMS, IBMS President Nick Kirk CSci FIBMS, Ismay Humphreys FIBMS

eStudent bursaries and awards
Miriam Sadis, a first year BSc (Hons) Biomedical Science student at the University of Bradford, was awarded the Institute eStudent British Science Festival bursary. The bursary is awarded annually to an Institute eStudent member, enabling them to attend the British Science Festival.

To find out more about Institute education and training visit: www.ibms.org/qualifications
Advancement of biomedical science

The Institute leads, guides and advises those who use biomedical science knowledge and skills to deliver patient care in all environments.

Research Grants

Institute research grants are awarded annually to members to support original investigations and other suitable research work. The grants awarded are usually between £500 and £5,000.

In 2014/15, we awarded £22,100 of research grants.

Advisory Panels (APs)

Through our eight discipline-specific Advisory Panels we provide scientific and professional expertise, knowledge and advice to guide the Institute in determining policy, developing publications, advising governments and informing the media. The members of our panels are recognised for their experience and expertise, which is used to further biomedical science and the work of the Institute.

Key highlights from 2014/15

• Played a central role in developing and delivering the scientific programme for Congress 2015.
• Supporting the development of equivalence routes to registration as a biomedical scientist.
• Fed into the Institute Education strategy and work plan priorities.
• Provided Institute representatives to standard setting organisations including: Keele Benchmarking scheme, National Quality Assurance Advisory Panel (UKNEQAS), National Clinical Biochemistry Audit Group, National Cervical Cytology Education and Training Committee (NCCETC).
• Created online Journal Based Learning exercises.

To find out more about our Panels please visit: www.ibms.org/panels
Our members told us that it was important for the Institute to represent our members with governments, employers and Higher Education Institutions. Members wanted to see that we were representing their interests in key areas including NHS reform, regulation and promoting the role of biomedical science in society.

Key Highlights from 2014/5

• Our President responded to NHS England’s The Five Year Forward View and Sir Robert Francis QC’s Freedom to Speak Up review.
• We issued a joint press release with the RCPath announcing the resumption of in-house immunohistochemistry testing at Sherwood Forest Hospitals NHS Foundation Trust’s King’s Mill Hospital.
• We issued joint statements with the RCPath and Association for Clinical Biochemistry and Laboratory Medicine (ACB) on Demonstrating Professional Proficiency and the Cancer Taskforce report: Achieving World-Class Cancer Outcomes.
• Three Institute representatives participated in the review group for the QAA Benchmark Statement for biomedical sciences.
• We ran four Member Engagement Groups on topics including best practice, improving the Institute’s website and eLearning resources.
• We have raised our profile through media coverage in Newsweek, Hull Daily Mail, The Witney Gazette, Mansfield and Ashfield Chad, Lincolnshire Echo, Boston Target, Sutton Coldfield Local, Medical News Today, MedicalPress, Birmingham Press, Select Science and News Medical.
• The Institute sponsored the Silver Award in the Biological and Biomedical Sciences poster competition category at SET for Britain, a poster competition hosted by the House of Lords that showcases the work and communication skills of early career researchers.
• Institute members from across the UK took part in local school and college careers events, to raise the profile of the profession, including; National Healthcare Science Week and the Schools Science Conference.

Advocacy

The Institute engages with a wide audience to communicate the value of biomedical science through events, sponsorship, social media and media relations.

We responded to the following consultations:

Health and Care Professions Council - Rules for Professional Indemnity, October 2014
Health Education England - Healthcare Science Draft Apprenticeship Standards: levels 2-4, January 2015
Royal College of Pathologists - Minimum Retesting Intervals in Pathology, April 2015
Royal College of Pathologists & NHS England Alert - Patient Safety Alert: Standardising of Pathology Reports, April 2015

Royal College of Pathologists - Minimum Referring Intervals in Pathology, April 2015
Health and Care Professions Council - Consultation on Revised Standards of Conduct, Performance and Ethics, June 2015
NICE - Draft Guideline on Transfusion Consultation, July 2015
Health Education England - Workforce Planning and Strategic Framework (Framework 15) 2015/16 Call for Evidence, July 2015
Organisational robustness

We want to run an effective, efficient organisation that is sustainable with the capacity to deliver our mission effectively. To achieve this we need to utilise new technology, attract and retain high-calibre staff to offer the best possible support to our members and other stakeholders.

Key highlights from 2014/5
• We introduced a new Customer Relationship Management system with a view to offering enhanced services to members via the Institute website.
• As part of our commitment to open and transparent governance we have opened the Institute’s Committee meetings to observers.
• We signed the Science Council Declaration on Diversity, Equality and Inclusion.
• We reviewed and enhanced support and guidance for members standing for election to the Institute’s Council.
• We appointed first lay member to the Institute’s Council.
• Online nomination process for members standing for election to the Institute’s Council.
• Review contracts for The Biomedical Scientist and Congress.
• Determine our investment strategy.
• Review our expenses policy.

Advancement of Biomedical Science
• Highlight the importance of rigorous and responsive vocational qualifications for the development of a highly skilled scientific workforce with publication of case studies.
• Re-launch of the British Journal of Biomedical Science (BJBS) with a new publisher and editor.
• Publishing new editions of Histopathology and Immunology textbooks in the Fundamentals of Biomedical Science series.
• IBMS Advisory Panels will undertake a review of the current Institute qualifications offering.

Advocacy
• Develop online resources for members involved in Public Engagement.
• Run campaigns to raise the profile of biomedical science including on International Women’s Day.
• Raise the profile of the Institute and promote careers in biomedical science by taking part in the Big Bang Fair.

Plans for 2016

Supporting our Members
• Launch the new Institute website.
• Implement the Institute Diversity strategy.
• Promote International Federation of Biomedical Laboratory Science (IFBiLS) awards and bursaries to our members.

Professional Development and Standard Setting
• Launch new, improved Institute CPD scheme.
• Update professional guidance on The role of biomedical scientists within the provision of non-gynaecological cytology services, Giving results over the telephone and Patient Sample and Request Form Identification Criteria.
• Issue updated version of the Institute Registration Training Portfolio.
• Launch the full Diploma in Biomedical Science.
• Develop a Certificate of Expert Practice (CEP) qualification in Genomics.
• First candidate will take an IBMS Diploma of Expert Practice (DEP) in Mohs Histological Procedures.

Advancement of Biomedical Science
• Highlight the importance of rigorous and responsive vocational qualifications for the development of a highly skilled scientific workforce with publication of case studies.
• Re-launch of the British Journal of Biomedical Science (BJBS) with a new publisher and editor.
• Publishing new editions of Histopathology and Immunology textbooks in the Fundamentals of Biomedical Science series.
• IBMS Advisory Panels will undertake a review of the current Institute qualifications offering.

Governance in the Institute

The Institute’s Council is responsible for the overall governance of the organisation. There are currently 21 members of Institute Council, with 6 National and 12 Regional representatives. They are directly elected by members in their region or country. Institute Council also includes the President, President Elect and Treasurer.

The Council sets the strategic direction of the Institute and the standing committees assist the Council in its work within their delegated authorities.

There are five standing committees:
• Audit Committee
• Education and Professional Standards Committee
• Executive and Finance Committee
• Membership and Marketing Committee
• Remuneration Committee
### Council and Standing Committee Members

Approved by Council on 4th March 2016
Independent auditor’s statement to the members of the Institute of Biomedical Science

We have examined the summary financial statements for the year ended 30th September 2015.

Respective responsibilities of trustees and the auditors
The trustees (who are also the directors of the company for the purposes of company law) are responsible for preparing the summary financial statements in accordance with applicable United Kingdom law. Our responsibility is to report to you our opinion on the consistency of the summary financial statements with the full annual financial statements, and its compliance with the relevant requirements of section 427 of the Companies Act 2006 and the regulations made there under.

We conducted our work in accordance with Bulletin 2008/3 issued by the Auditing Practice Board. Our report on the charitable company’s full annual financial statements describes the basis of our opinion on those financial statements and on the Council member’s report.

We also read the other information contained in the summarised financial statement and consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the summary financial statements.

Opinion
In our opinion the summary financial statements are consistent with the full annual financial statements of the Institute of Biomedical Science for the year ended 30th September 2015 and comply with the applicable requirements of Section 427 of the Companies Act 2006 and the regulations made there under.

Jeremy Beard  
(Senior statutory auditor)  
for and on behalf of haymacintyre, Statutory Auditor

26 Red Lion Square  
London  
WC1R 4AG  
4th March 2016

haymacintyre is eligible to act as an auditor in terms of section 1212 of the Companies Act 2006.

Statement by Council members
The attached summarised accounts are a summary of information extracted from the annual accounts and certain information relating to both the Group statement of financial activities and the group balance sheet.

These summarised accounts may not contain sufficient information to allow for a full understanding of the financial affairs of the charity. For further information, the full annual accounts and the Council members’ annual report should be consulted: copies of these can be viewed online at www.ibms.org/accounts

The full annual accounts have been subject to external examination by an independent auditor and received an unqualified audit report.

The annual accounts were approved by the Council members on 4th March 2016 and have been submitted to Companies House and the Charity Commission.

J Rodney  
Chief Executive
