Dear Sirs

**Institute of Biomedical Science response to HCPC consultation on the standards of proficiency for biomedical scientists**

The Institute of Biomedical Science is fully supportive of the standards presented in the consultation and are not proposing any further changes.

We are pleased to have had the opportunity to have our comments considered in the pre-consultation phase and have noted that several suggestions for modification were accepted. In addition we support the view that some suggestions were not acceptable in terms of the need for with consistency and transparency with other professions.

Yours sincerely

Alan Wainwright
