1a. Informal Interview with Candidate (15 – 20 minutes)

| Based on requirements of meeting the HCPC SETs. STANDARD MET: | | | |
|--|-------------|-------------|--|
| Describe your formal trust and departmental induction process. | \boxtimes | | |
| How were you made aware of the location of the policies on equal opportunities and anti-discrimination? | \boxtimes | | |
| Describe what you should do if you feel that you may have been discriminated against or if you have concerns about the safety and well-being of service users. | \boxtimes | | |
| How were you made aware of the grievance procedure and how to initiate it? | \boxtimes | | |
| Do you feel you have followed a structured training programme? | | | |
| Was your training supportive to satisfy all of the above? | | | |
| Were there any difficulties in delivering your training? | \boxtimes | | |
| Were there any other trainees? | \boxtimes | | |
| Was all the training done on one site? | \boxtimes | | |
| Was there any rotation or collaboration with other departments? | | \boxtimes | |
| Can you give examples of being able to take part in inter-professional learning? (learning with and from other professionals)? | \boxtimes | | |

1b. Specific requirements to confirm standards for IBMS Approval for Pre-registration Training are being met.

| Based on requirements of meeting the HCPC SETs. STANDARD MET: | | |
|---|-------------|-------------|
| Was a copy of the training programme made available? | | \boxtimes |
| Does each trainee have a nominated HCPC registered training officer/mentor? | \boxtimes | |
| Do they have access to current textbooks and journals? | \boxtimes | |
| Do they have access to a quiet area for study? | \boxtimes | |
| Does the Department have a training notice board? (wall or electronic) | | |
| Does the Department have a Health & Safety notice board? (wall or electronic) | \boxtimes | |

| Did the cand process? | lidate or traini | ng officer wish | to make any fui | ther comments | about the tra | ining |

Version 6.1 (05/21)

Please indicate the range of evidence provided, highlighting any strong or weak areas.

- E1 Description of work performed in the lab & interactions with other health care professionals.
- E2 Description of health care professionals. No evidence of questions & answers as described in the justification section of the logbook.
- E3 Description of leadership. No evidence of questions & answers as described in the justification section of the logbook.

IMPORTANT:

The candidate must produce a reflective statement on how the engagement with service users and learning with and from professionals and learners in other relevant professions has contributed positively to their professional development (HCPC SoP 9.3, 12.2)

Please comment specifically on this in terms of identified outcomes.

OVERALL COMMENTS ON PORTFOLIO

Page 9 of 14 Version 6.1 (05/21)

3. Tour of Laboratory (maximum length – 40 minutes)

This is an opportunity to observe the training environment and candidate's knowledge and understanding of the service delivery. The candidate should be able to demonstrate an understanding of the routine service and respond correctly to pro-active questioning.

The criteria below should be verified in accordance with the knowledge and understanding of the candidate in respect of the discipline(s) in which their training has taken place.

| CANDIDATE ABILITY | STANDARD MET | STANDARD NOT MET |
|--|-----------------|---------------------|
| Candidate was able to show they knew the correct procedures for handling specimens, pre and post analysis. | | \boxtimes |
| Candidate was able to show a knowledge and application of health & safety requirements. | | |
| Candidate was able to show they knew how to use the main laboratory computer system in accordance with service requirements. | \boxtimes | |
| Candidate was able to show they knew how to operate equipment used in the preparation and analysis of samples | | \boxtimes |

COMMENTS

Please provide a brief summary of the topics covered on the tour and the candidate's scope of practice.

XXXXXX delivered a power point presentation and although was initially very nervous, grew in confidence as she talked about analysers within the department and how they operate. XXXXXX started at reception, detailing where samples arrive from and how they are sorted. This section included a "hotcell" and "coldcell" section for urgent and routine work. XXXXXX demonstrated the use of Telepath, the LIMS used within the trust. XXXXXXX continues her tour through the lab, and described validation of results, middleware, temperature control & storage and retention of samples.

XXXXXX continued on to demonstrate a good knowledge of the analysers, describing the techniques by which they function. XXXXXX considered the quality aspects of the process, including troubleshooting and maintenance.

XXXXXX covered many aspects of the lab and lots of tests performed, and was confident on the use and theory of the analysers.

XXXXXX was able to answer most of the questions I asked during the tour, but did require some prompting form the training officer for some health and safety questions & EQA questions.

XXXXXX has obviously spent a lot of time on her portfolio and talk, and came across well in the talk. However, due to different factors, some of her knowledge was out of date, and I believe she would benefit from extra training to get her up to speed.

The Institute has published 'Clinical Laboratory Standards' for the approval of laboratories for preand post- registration training. Based on these criteria, the laboratory tour also gives the external verifier an opportunity to judge whether the laboratory has the appropriate requirements for training against the standards below.

| OVERALL STANDARDS | STANDARD | STANDARD |
|-------------------|----------|----------|

4. Feedback Comments to Trainer and Candidates

FEEDBACK:

This also provides an opportunity to seek further clarification on points of evidence if required.

| I spoke with the training officer after the tour and we agreed that some areas of the portfolio |
|---|
| needed extra work, and some was out of date and needed replacing. |

In addition, XXXXXX struggled with some health and safety questions. I believe XXXXXX needs to spend some time in the lab with the training officer to get her up to speed to work safely and confidently within the lab.

| | COMMENDATIONS: | Highlight any | v areas of good | practice. |
|--|----------------|---------------|-----------------|-----------|
|--|----------------|---------------|-----------------|-----------|

Good theory of knowledge on the workings of the analysers. Portfolio & talk covered a wide range of subject to a good level.

RECOMMENDATIONS:

Please note this is meant to be constructive and helpful where you are able to suggest one or two areas where future training may benefit.

Recommendations must be consistent with IBMS guidelines for registration training and portfolio completion.

Evidence was not always clear and concise i.e. it read like several pieces of evidence to cover as many standards as possible. There needs to be 3 clear pieces of evidence for each section.

Question & answer sections had 1 question in, followed by long essay answers. Fine for one or 2 pieces of evidence but try to mix it up a bit.

Portfolio was scanned using a phone, making it difficult to read – use scanner in the lab.

Difficult to find a reflective statement required for section 1 module 5. Needs to be clearer – try to answer the question being asked and not cover too much, making the portfolio hard to follow.

Version 6.1 (05/21) Page 12 of 14

5. Result of Verification

If completion of any academic study is still outstanding, the verifier should recommend the award of the Certificate of Competence subject to the relevant evidence being submitted to the Institute.
